

LOOK. THINK. DO.

Look out for danger. Think of how you can protect yourself. Do your work safely.

6 Basic Workplace Safety and Health (WSH) Rules to reduce Workplace Risks

Risk Assessment (RA) is key to ensuring that tasks can be carried out safely. **Many accidents happened because the RA was not carried out OR the RA for the work activity was not good enough.** Before you start work, identify hazards and check that risk controls are in place so that accidents can be prevented.

Identify and report unsafe conditions.

Identify and report unsafe behaviour.

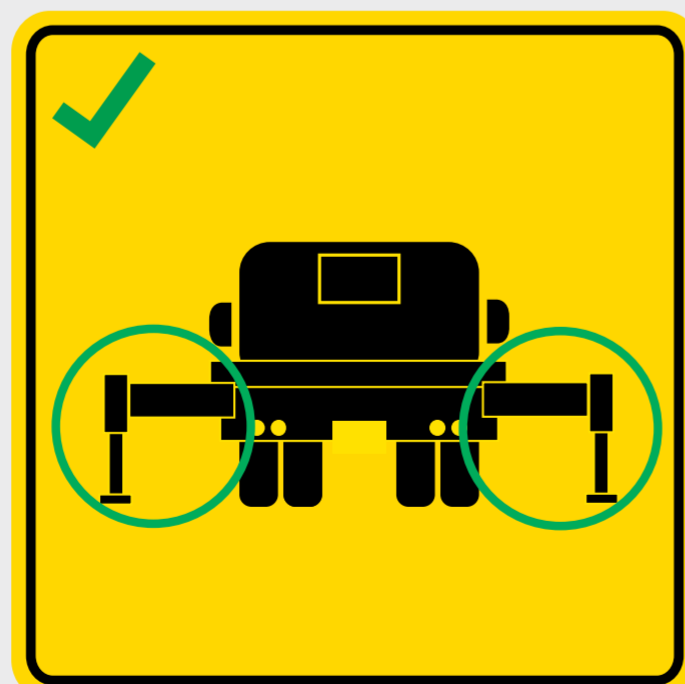

Eliminate hazards where possible.

Substitute with safer alternatives.

Check that risk controls are in place.

Follow safe work procedures.
